PROJECTS

Travel Buddies: <http://3.136.108.165/>

Hosted via AWS

Credentials email: l@l.com pw: lialialia

- A site to organize adventures with friends
- Full Stack deployment of Django Python, uses bcrypt for password security

Cribbage -Pro:

- Utilized Angular and OOP programing to create a heavy logic based classic two player card game

Memory Dump:

- Collaborated with my fellow cohort mates to create a copied version of Stack Overflow all done with SpringBoot in Java.

WORK EXPERIENCE

Web Developer - Coding Dojo : Oct 2019~ present

Designed, created, built, and troubleshooted full scale web applications in a three month intensive boot camp. From this exposure I become proficient in three different frameworks: SpringBoot, Angular, Django.

EMC Test Technician - Eurofins MET laboratories - March 2019~Oct 2019

Verified that customers products from around the world compiled with FCC standards and other associated countries' safety guidelines.

Bookkeeper/Server - BJ's Restaurant & Brewhouse - April 2018 ~ March 2019

Balanced the restuances books, recorded the previous days' sales numbers.

Wine Tasting Associate/Administrative Assistant - Scribnerbend Vineyards - 2017 ~ 2019

On the weekends, I was bartender for multiple weddings and helped guests choose and purchase their desired wine selections. On weekdays, I handled new memberships and membership renewals and card updates, perped for monthly shipments of orders.

TA/Tutoring - Math Learning Skills Center on campus (CSUS): 2017
